*Socialist Studies: the Journal of the Society for Socialist Studies*, is published by the Society for Socialist Studies.

The Society for Socialist Studies is an association of progressive academics, students, activists and members of the general public. Since its creation in 1966, the Society has been dedicated to providing a forum for those who promote a socialist perspective as a foundation on which to build solutions to political, economic, workplace, social, gender, ethnic, environmental and other forms of exploitation, oppression and injustice. It is unique in bringing together individuals from all walks of life and as a member of the Canadian Federation for Humanities and Social Sciences, is in a position to create links with other organizations, promote the concerns of members, and present an influential face to policy makers.

As such, *Socialist Studies: The Journal of the Society for Socialist Studies* is a peer-reviewed journal dedicated to publishing articles on as broad an array of topics as possible from all fields of study. Typically, articles will adopt a critical perspective, which will shed light on, and offer remedies for, any form of social, economic or political injustice. *Socialist Studies* is published in the spring and fall.
